

# Eyewear instructions

YEYKEY

Lenze interchange:

First make sure, that you have the left lens for the left part of the frame and the right lens for the right part of the frame.

**OUT:** Hold the frame at the bottom and gently apply pressure to the lens from the bottom-backside until it pops out.

Please polish the lenses with your YEYKEY microfiber bag

**IN:** Slide the topside of the lens from the front into the frame. Then gently apply pressure to the bottom of the lens until it pops back in.

## How to clean my Sunglasses:

Filters can be cleaned with lukewarm water and non-aggressive liquid detergent (neutral pH 7) and wiped with a soft cotton cloth.

Warning: on anti-fog coated lenses do not use water or water based cleaning agents and materials that contain ammonia.

Use only rubbing alcohol or ethanol.
